What is Biblical Intelligent Design?

 Biblical Intelligent Design takes on some of the components of the Intelligent Design Movement with one real distinction. Biblical Intelligent design links all of the design features we recognize to the only logical cause. The Biblical Creator God who spoke and left his voice print on the essence of matter. The scripture tells us in Romans 1:20 ?For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse:? It is my belief that if the string theory has any validity to it, the voice of God had to be what shaped the essence of matter and brought about the building blocks of matter. There are no scientific naturalist answers to where matter came from and the cause of all we know would have to be from a source outside of what we call the universe. What that means is, as Genesis 1:1 states "In the beginning God created the heaven and the earth."
